

MERROW®

SEWING MACHINE COMPANY

MG-3DW-7

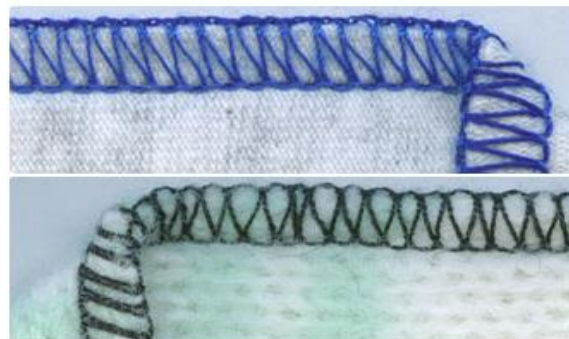

OPERATING SPEED	5500 RPM
STITCH WIDTH	-1/4" Standard
STITCH RANGE	20 - 40 SPI
STANDARD NEEDLE	MERROW 5SDT
MERROW NEEDLE RANGE	MERROW 1SDT-8SDT
FEDERAL STITCH TYPE	504
MOTOR REQUIRED*	Merrow M12, 1/2HP, 3450 RPM
NUMBER OF THREADS	3-6

FLAME RESISTANT SEAM FOR
NOMEX FLIGHT SUITS

HEM CLOSURE FOR KEVLAR
GLOVE CUFFS

The Advantage of the MG-3DW-7

The Merrow MG-3DW-7 is the best performing industrial overlock sewing machine for sweaters, fleece, and heavyweight wools. It sews a 1/4" stitch at high speed (5500 RPM) that won't pucker, curl, or pull back thread. It is a single needle, three-thread machine built on Merrow's proprietary cam driven architecture, which makes the machine as durable as the stitch is resilient.
